PUB LIFE

C.U.N.S.A.

C.U.N.S.A., or the Canadian University Nursing Students Association, enjoyed yet another exciting year!

Delegates and students from U of T journeyed to the University of Windsor for a conference on Pain Management, and to Quebec City for a conference hosted by Laval University on the topic of Violence in Society and the Implications for Nursing. These conferences continue to be an excellent opportunity to meet fellow nursing students across the province and the country to share ideas, discuss CUNSA'S plans and have fun.

As the official voice of baccalaureate nursing students, CUNSA strives to promote professionalism. At our university, this was fulfilled in part by inviting guest speakers to discuss relevant issues such as massage, self-defence and non-invasive cancer therapy.

MESSAGE FROM THE DEAN . . .

It is a pleasure and privilege to contribute, on behalf of the Faculty, to the 1987 Yearbook. The following pages provide a glimpse of an important aspect of the life of the Faculty of Nursing, a record of some significant student activities. Such a record has high value not only as a memento for those recorded but also as a segment of the Faculty's recorded history.

We commend those who have invested untold time, energy and thought in putting together the Yearbook. Their creativity is applauded. To them and to all readers go my good wishes and those of the Faculty.

Women's College Hospital celebrated its 75th Anniversary in 1986. Our history is unique in that the hospital originated out of a need for a facility in which women physicians could practise. Today, Women's College Hospital is a 350 bed, acute care University teaching hospital. Through continuous expansion and development, a particularly caring attitude and personalized approach to patient care has been preserved.

Our specialized services include: Bay Centre For Birth Control, NICU, Sexual Assault Care Centre, Henrietta Banting Breast Centre, PERC, Perinatal Bereavement Support Team, And Tri-Hospital Diabetes Education Centre. We wish all graduates good luck in their future endeavours.

We welcome applications from new graduate nurses.

Share your skills overseas... gain a lifetime of experience

CUSO NEEDS:

NURSES: with a degree/diploma and several years experience to:
teach
work in rural clinics/hospitals
work in specialty areas such as leprosy, maternal and child health and/or midwifery

Is an overseas posting in your career schedule? If so, you should start planning now. CUSO has a continuing need for nurses who have completed their training and have some experience in Canada. We'd be glad to provide information on the types of postings we have available and the work you would be doing.

For 25 years we have been placing skilled, qualified Canadians in important and challenging jobs in developing countries around the world. In that time, 9,000 have worked on two-year contracts with us, passing on skills and gaining an insight into very different cultures and ways-of-life.

Salaries are paid in local currency and are adequate to meet overseas living costs. In addition we provide a generous benefits package which includes a $6,700 Canadian subsidy. Couples can be considered if there are suitable jobs available for both partners, but difficulties arise in placing families because of inadequate facilities for children. For more information, contact: CUSO, Attn: **RH-5**, 135 Rideau St., Ottawa, Ont. K1N 9K7.

NURSING AT ITS BEST!

NEW NURSING BOOKS from Addison-Wesley Publishers

FROM NOVICE TO EXPERT: Excellence and Power in Clinical Nursing Practice
Patricia Benner, R.N., Ph.D.
University of California, San Francisco, School of Nursing

Winner of the 1984 American Journal of Nursing "Book of the Year" Award in the Nursing Education and Nursing Research categories, this landmark work is a testimonial to the importance of nursing. Based on Dr. Benner's seminal research, FROM NOVICE TO EXPERT includes many clear, colorful examples from actual nursing practice, presented in nurses' own words. This book is of direct and special interest to staff development educators, nursing administrators, and nurse educators in senior trends and issue courses.

CENTURIES OF DISCOVERY

PARKE-DAVIS ONE HUNDRED YEARS IN CANADA

PARKE-DAVIS ENTERS A SECOND CENTURY OF SIGNIFICANT DISCOVERIES

Parke-Davis has grown with Canada sharing pharmaceutical research and development discoveries such as Adrenalin, Dilantin, Benadryl, Zarontin and Lopid.

And the future looks even more promising. In the next century, Parke-Davis will continue to increase medical research both in Canada and on a worldwide basis.

We're working hard to find the answers to many of today's medical problems; antitumor agents to help the fight against cancer, cognitive agents to combat Alzheimers disease, antihypertensives and lipid regulators to help prevent cardiovascular disease. Research is currently going on to discover new drugs for schizophrenia, epilepsy, asthma, heart disease and infections.

As a demonstration of our commitment to Canada, we invest eleven and one half cents of every sales dollar and employ eighty-three people in research and development, right here in Canada.

Help us share a better Canada through innovative drug research as we enter a second century of discoveries.

Your Most Rewarding Career Could Be With Us

Congratulations. Now you're graduating and ready to begin your career as a health care professional.

Have you considered applying your skills in long term care? It may be the most rewarding area of nursing you could choose to work in.

In long term care nurses are key decision makers.

And at Extendicare, there are opportunities for nurses to advance into management.

It's for these reasons that most of our nurses wouldn't work anywhere else.

If you're interested in exploring a career in long term care, give us a call.
